

Early Childhood Graduate Level Endorsement Program

A minimum of 16 hours is required to meet the Early Childhood Endorsement guidelines of the Utah State Office of Education. This endorsement is added to a basic state certificate in elementary education. Individuals entering the endorsement program must already hold an elementary education teaching certificate. Completion of the program allows certified elementary teachers to teach at the kindergarten level.

Courses are available during regular summer semesters and include an applied early childhood practicum in approved settings.

Early Childhood Master's Degree Emphasis

The 16 credits of Early Childhood courses as outlined here may be used as an emphasis area in the various master's programs offered in the Department of Elementary Education. The Master of Education (M.Ed.), Master of Arts (M.A.), and Master of Science (M.S.) degrees are offered. The courses may be used as part of the required courses, professional options and/or supporting coursework in the various programs. Individuals interested in this option must apply for formal admission to the Utah State University School of Graduate Studies.

Course Requirements Select 16 Credits Across All Areas

PRACTICUM

ELED 6260
Supervised Practicum in Early Childhood Education – 2 credits (F: DS)
